RE: Twin Rivers Technologies Manufacturing REACH Registration Statement – TRC108

Dear Sir or Madame;

Twin Rivers Technologies Manufacturing, (“TRT”), has completed the registration process under the EU REACH program for products that have been chemically modified during the manufacturing process. At TRT the only method by which products can be chemically modified takes place via hydrogenation.

This letter is intended to specifically clarify the REACH registration status of TRT’s **TRC108** Product Line. The TRC108 contains ingredients that have been or may have been hydrogenated during production.

TRT has acquired REACH certifications through the ECHA registration process for the components of those modified components. Attached to this letter please find the SDS for TRC108; the SDS’s of all the REACH components of TRC108 and the associated REACH certificates for the TRC108 REACH registered component(s):

- **Fatty Acids, C₈ - C₁₈ & C₁₈ unsaturated; 67701-05-7**

TRT contracted Ecomundo as it’s Only Representative (OR). Ecomundo’s offices are located at:

EU Headquarters	North America	South Korea
34 Avenue des Champs-Élysées	4284 Rue de la Roche	Daeshin Finance Center, 343
75008 Paris, France	Montréal, QC H2J 3H9	Samil-Daero, Jung-gu, Seoul
Phone: +33 (0)1 83 64 20 54	Phone: +1 514 803 9179	Phone: +82 10 30 93 62 46
E-mail: contact@ecomundo.eu	E-mail: usa-canada@ecomundo.ca	Email: korea@ecomundo.eu

If you have any questions, please contact TRT’s Quality Manager at (617) 472-9200.

Best Regards,

Twin Rivers Technologies Manufacturing Corporation
